

SR1-MAG-600MORT-VP
Mini Mortice Maglock With Optional Door Monitoring

Description

The Mini Mortice Maglock offers a powerful and discreet solution for securing sliding doors and gates. This versatile electromagnetic lock provides a strong holding force, a sleek design, and optional door monitoring for enhanced security management. The Mini Mortice Maglock is an ideal choice for various access control applications where reliable security and a clean aesthetic are desired.

Key Features:

- **Miniature Design:** Provides a sleek, integrated appearance for a seamless aesthetic.
- **Powerful Holding Force:** Delivers up to 275kg (600lbs) of holding force, ensuring reliable door security.
- **Dual Voltage Operation:** Selectable for 12VDC or 24VDC operation for compatibility with different power systems.
- **Mortice Fix:** Enables a flush finish for a clean, professional look.
- **MOV Protection:** Offers surge and spike protection for enhanced electrical safety.
- **Fail-Safe Operation:** For safety, the lock automatically releases when power is lost.
- **Anti-Residual Magnetism:** Prevents the door from sticking after unlocking.
- **Optional Door Monitoring: (*Monitored Version Only)** Provides a contact output for monitoring door status (available in a separate model).

Product Specifications

Weight	2000 kg
Brand	Smart R Distribution
Lock-options	Monitored, Unmonitored
Colours	Alloy
Connection-type	Pigtail / cable connection
Construction	Aluminium Alloy
Holding-force	600 Lbs
Mounting	Flush Mount
Power-requirement	12-24 VDC
Operating-temperature	-10°C to 55°C
Safety-features	Fail-Safe
Form-factor	Mortice Maglock
