

SR1-MAG-300ZL
Z & L Bracket Kit For Mini Magnetic Locks

Description

The Z & L Bracket Kit For Mini Magnetic Locks is an essential component for optimising mini maglock installations on inward opening doors. This kit offers precise adjustability, exceptional stability, and a durable design, ensuring a secure and reliable access control system with your mini maglocks.

Key Features:

- **Fully Adjustable Design:** The Z bracket offers 18mm of adjustment, enabling perfect alignment of the mini maglock with the armature plate for secure locking.
- **Z & L Bracket Combination:** Provides exceptional stability and flexibility for mini maglock mounting.
- **Suitable for Inward Opening Doors:** Designed specifically for inward opening doors for proper functionality.
- **Anodised Aluminium Finish:** Offers a sleek and modern aesthetic that complements various architectural styles.
- **Durable Construction:** Made from aluminium for long-lasting performance.
- **Wide Mini Maglock Compatibility:** Works seamlessly with a wide range of slim-cased mini maglocks.
- **Double Maglock Installations:** Requires two Z & L Bracket Kits for secure mounting of double mini maglocks.
