

SR1-MAG-300AZL
Architectural Z & L Bracket With Cover For Mini Maglocks

Description

The Architectural Z & L Bracket with Cover For Mini Maglocks offers the perfect blend of functionality and aesthetics for mounting mini maglocks on inward opening doors. This innovative kit provides precise adjustability, exceptional stability, a discreet cover, and a durable design, ensuring a secure, reliable, and visually pleasing access control system.

Key Features:

- **Fully Adjustable Design:** The Z bracket offers 22mm of adjustment, enabling perfect alignment of the mini maglock with the armature plate for secure locking.
- **Z & L Bracket Combination:** Provides exceptional stability and flexibility for mini maglock mounting.
- **Architectural Cover:** Discreetly conceals wiring and mounting points, enhancing the overall aesthetic of the access control system.
- **Suitable for Inward Opening Doors:** Designed specifically for inward opening doors for proper functionality.
- **Aluminium Construction:** Offers a lightweight yet durable solution.
- **Wide Mini Maglock Compatibility:** Works seamlessly with a wide range of slim-cased mini maglocks.
- **Double Maglock Installations:** Requires two Z & L Bracket Kits with Covers for secure mounting of double mini maglocks.
