

SR1-MAG-300CL
Adjustable Covered L Bracket for Slim Maglocks

Description

The Adjustable Covered L Bracket for Slim Maglocks offers a unique combination of functionality and aesthetics for mounting slim maglocks. This innovative bracket simplifies installation, conceals cabling, and provides a visually pleasing solution for various access control applications.

Key Features:

- **Adjustable Design:** Allows for optimal positioning of the maglock on inward opening doors for a perfect fit.
- **Curved Cover:** Hides cabling for a clean and professional finish.
- **Architectural Design:** Complements modern architectural styles.
- **Aluminium Construction:** Provides a lightweight yet durable solution.
- **Suitable for Outward Opening Doors:** Ensures compatibility with various door configurations.
- **Compatible with Slim Maglocks:** Works seamlessly with a wide range of slim maglock models.
- **Easy Cable Management:** Conceals cabling within the bracket for a streamlined appearance.
- **Multiple Fixing Points:** Enables precise positioning of the maglock for optimal performance.
- **Two Brackets Required for Double Maglocks:** Provides secure mounting for double maglock installations.
