

GS200-SH  
Gem GS200-SH – Glass Door Housing For GS200 Series Shear Locks

**Description**

The Gem GS200-SH Glass Door Housing is a practical and stylish solution for securing glass door entry points with GS200 series shear locks. This surface-mount housing offers a simple installation process, compatibility with both monitored and unmonitored lock models, and a sleek aesthetic that complements modern design. The GS200-SH Glass Door Housing is the ideal choice for enhancing the security and functionality of your glass door entrances.

**Key Features:**

- **Surface Mounting:** Enables the installation of GS200 series shear locks directly onto the glass door surface.
- **Compatible with GS200 and GS200M:** Works seamlessly with both monitored and unmonitored GS200 shear lock models.
- **Satin Anodised Aluminium Finish:** Provides a sleek and stylish aesthetic that complements modern glass door designs.
- **Alignment Shims Included:** Simplifies installation by ensuring proper lock alignment during mounting.
- **Glass Door Compatibility:** Ideal for use with both framed and frameless glass doors (when used with GS200GH Glass Header - sold separately).
