

GS200-GH
Gem GS200-GH – Glass Door Fixings For GS200 Series Shearlock

Description

The Gem GS200-GH Glass Door Fixings offer a practical and elegant solution for installing GS200 series shear locks on frameless glass doors. This easy-to-use fixing kit eliminates the need for glue, ensuring a clean and efficient installation process. With its sleek design and compatibility with various glass thicknesses, the Gem GS200-GH is the ideal choice for enhancing the security and aesthetics of your frameless glass door entrances.

Key Features:

- **Designed for Frameless Glass Doors:** Compatible with glass doors ranging from 10mm to 13mm in thickness.
- **Seamless Integration:** Works effectively with the [GS200-SH Glass Door Housing](#) for a complete security solution.
- **Satin Anodised Aluminium Finish:** Offers a sleek and stylish aesthetic that complements modern glass door designs.
- **Grub Screw Fixings:** Provides a secure installation without the mess or hassle of glue.
- **Slim Plates Included:** Accommodate various glass thicknesses for a precise fit.
