

SR1-SDL-350A
450mm Armoured Surface Door Loop

Description

Ensure reliable and secure cable protection for door applications with the 450mm Armoured Surface Door Loop. This heavy-duty loop safeguards electrical and communication cables between door frames and leaves, even in demanding environments.

Key Features:

- **450mm alloy tube:** Provides ample length for most door installations.
- **Surface-mounted design:** Simplifies installation without door modification.
- **Internal/external use:** Versatile for various applications, including outdoor environments.
- **Durable zinc alloy casing:** Electroplated for superior corrosion resistance and strength.
- **Protects internal cables:** Shields wires from damage, tampering, and accidental severing.
- **Clean aesthetic:** Sleek design blends seamlessly with various door styles.
