Javelin DNA – DTC Identity Card Printer in Single or Dual Side Options

Description

The Javelin DNA is a compelling choice for companies seeking a versatile and user-friendly ID card printing solution. This direct-to-card (DTC printer) delivers high-quality identity cards for access control, with flexible printing options, and integrates seamlessly with your existing infrastructure. With its robust features and ease of use, the Javelin DNA card printer empowers you to create professional and secure ID cards efficiently.

Key Features:

- **DTC Printing Technology:** Delivers vibrant colours and sharp text directly onto PVC cards for exceptional print quality.
- **Flexible Printing Options:** Choose between single-sided or double-sided printing (optional) for customised printing workflows.
- **High-Speed Performance:** Print monochrome cards at speeds of up to 800 cards per hour, or achieve 180-200 cph for single-sided colour printing.
- **Diverse Ribbon Selection:** A wide range of ribbons are available, including YMCKO for full-colour printing, monochrome ribbons for crisp black text, and specialty ribbons like metallic and fluorescent colour options.
- **Optional Encoding Capabilities:** Upgrade your Javelin DNA to encode magnetic stripes, contact chips, or contactless RFID tags for added security and functionality.
- **Durable Construction:** Built to last, with a 30-month warranty for peace of mind.
- **Seamless Connectivity:** USB 2.0 interface and internal USB hub for connecting peripheral devices ensure easy integration.
- **Windows Compatibility:** Supports various Windows operating systems for smooth operation.
- **High-Resolution Printing:** 300dpi resolution produces sharp and detailed images, text, and barcodes.
- **Large Card Capacity:** Input hopper holds 100 cards, and the output hopper accommodates 60 printed cards.

Javelin DNA comes with manual card feed as standard, whereas the [Javelin DNA Pro](#) comes with an automatic card feed as standard.

Note: Prices are for base models only. If you require encoding modules, prices are available upon application.
