

A-PATCH-LFP  
A-PATCH-LFP proximity patch – custom format encoded

**Description**

The Authenticard "A-PATCH" is a credential secured within an adhesive-backed PVC disc. "A-PATCH" is intended for applications such as asset tracking, inventory control, industrial tagging and can also be affixed to existing tokens / credentials to add multi-technology operation. The Authenticard "A-PATCH" range suits both new and established installations. Data choices consist of blank, programmer-ready, and open or custom format-encoded to your specification. Authenticard "A-PATCH" is available with no minimum order quantity for fast delivery.

- White gloss finish
- Diameter 20mm, Thickness 1mm
- Adhesive backed
