

CSM-2P
Farpointe Data CONEKT CSM-2P ISO14443-compliant, ISO-style composite card with 2K memory

Description

Farpointe Data Conekt® range includes traditional physical access credentials, such as clamshell cards, ISO cards, and key tags. Conekt's range of credentials support 26-Bit Wiegand format, as well as custom Wiegand, ABA Track II magnetic stripe and serial data formats. They employ value-add features, such as MAXSecure™, and advanced data protection, such as AES encryption. All Conekt credentials can be ordered programmed to various formats in exact number sequence required, and can be private labelled with a company name, logo, phone number, web address, or other information - call us for more information.
