

CSC-2
Farpointe Data CSC-2 High-Security clamshell-Style Card

Description

Conekt comprises Farpointe Data's mobile-ready contactless smartcard access control ID solution. Based upon the proven LEGIC® contactless digital radio frequency identification (RFID) platform, Conekt readers interface with a wide range of electronic access control systems by complying with either the legacy Wiegand or bi-directional Open Supervised Device Protocol (OSDP). In addition to supporting mobile access credentials, using the Bluetooth Low Energy (BLE) feature of select smartphones, Conekt includes a range of traditional physical access credentials, such as clamshell cards, ISO cards, and key tags. Conekt's range of credentials support 26-Bit Wiegand format, as well as custom Wiegand, ABA Track II magnetic stripe and serial data formats. They employ value-add features, such as MAXSecure™, and advanced data protection, such as AES encryption. All Conekt credentials can be ordered programmed to various formats in exact number sequence required, and can also be private labelled with a company name, logo, phone number, web address, or other information if required (call us for more information about private labelling).

Product Specifications

Weight	0 kg
Brand	<i>Farpointe Data</i>
Material	ABS
Operating-temperature	-35°C to 70°C
Frequency	13.56 MHz
Form-factor	<i>Clamshell</i>
