Safetrust SA350 Sabre Relay

Description

Upgrade your readers, not your entire system. The SABRE RELAY is a combination Bluetooth Low Energy (BLE) virtual credential reader with access controller management capabilities. Ideally suited for parking garages, remote buildings and single door offices where no existing cabling or reader infrastructure exists, the RELAY module enables users to gain access using Virtual Credentials stored inside the Safetrust Wallet on their mobile phone. Download the datasheet below for more information about the SABRE RELAY.
