

STI-13120EG
STI-13120EG Universal Stopper, surface-mount (37mm clear spacer), green emergency exit label – with sounder

Description

The Universal Stopper is a polycarbonate cover that protects devices such as manual call points, emergency buttons and dual action pull stations etc., without restricting legitimate operation. The versatile cover can serve as a push button, pull station, electrical device or call point cover. The Universal Stopper offers excellent protection against physical damage (both accidental and intentional), dust and grime as well as harsh environments both indoors and outdoors. Mounting options 0 & 1 are designed to meet the requirements of IP54, option 6 & 7 IP56 (Sealed Mounting Plate with option 6 provides IP66 protection).

- Protective UV-stabilised polycarbonate cover
- Surface mount, open backed
- 96 dB Deterrent Alarm
