Dahua 5MP HDCVI POC IR Eyeball Camera

Description

The Dahua 5MP HDCVI POC IR Eyeball Camera combines advanced technology with user-friendly features. This camera provides exceptional 5MP high-definition video, leverages existing cabling infrastructure, and simplifies installation with PoC technology. With its compact design, versatile functionality, and weatherproof construction, the Dahua 5MP HDCVI POC IR Eyeball Camera is a powerful and cost-effective solution for various security applications.

Key Features:

- **5MP High-Definition Video:** Capture crisp and detailed images with a resolution of 5 megapixels, allowing for clear identification of objects and people within the monitored area.
- **HDCVI Technology:** Leverages existing coaxial cable infrastructure, eliminating the need for additional cabling for video transmission, reducing installation time and costs.
- **Power over Coaxial (PoC):** Receives power directly through the coaxial cable from a compatible PoC recorder, simplifying installation and minimizing the need for separate power supplies.
- **Compact Eyeball Design:** Offers a discreet and versatile form factor suitable for various mounting locations.
- **Motorized Lens (2.7-12mm):** Provides adjustable zoom capabilities for tailoring the camera's view to your specific needs.
- **Built-in Microphone:** Enables audio recording alongside video footage for enhanced situational awareness.
- **Max IR Length 60m with Smart IR:** Provides clear night vision even in low-light conditions, with intelligent IR technology to prevent image washout from nearby objects.
- **IP67 Weatherproof Rating:** Ensures reliable operation in outdoor environments, withstanding dust and water ingress.
- **HD and SD Output Switchable:** Offers compatibility with both high-definition and standard-definition recording systems.
