

DH-NVR2108HS-8P-I

Dahua NVR2108HS-8P-I – 8-Channel Compact 1U 8PoE WizSense Network Video Recorder

Description

The Dahua NVR2108HS-8P-I is a compact and feature-rich 8-channel network video recorder (NVR) designed for efficient and reliable security surveillance. This device offers a range of advanced features, including AI-powered analytics, high-resolution recording, and flexible network connectivity.

Key Features:

- **8-Channel Capacity:** Supports up to 8 IP cameras for comprehensive surveillance.
- **1U Compact Design:** Space-saving design for easy installation.
- **8 PoE Ports:** Provides power and data transmission over a single Ethernet cable.
- **AI-Powered Analytics:** Utilises AI algorithms for enhanced features like face detection, face recognition, and perimeter protection.
- **High-Resolution Recording:** Records video at up to 1080p resolution for detailed footage.
- **Flexible Network Connectivity:** Supports various network protocols and remote access via mobile devices.
- **Advanced Features:** Includes multi-screen display, third-party camera access, and customisable settings.

Please Note: There is an upgraded Version of this product. [PLEASE SEE HERE](#)
