MD200
Farfisa MD200 2-Button Module With Speaker

Description

The Farfisa MD200 2-Button Module With Speaker offers a practical and aesthetically pleasing solution for upgrading your Mody series intercom system. This 2-button module with integrated speaker combines clear communication with a modern design, providing a valuable addition to your building's communication infrastructure.

Key Features:

- **Integrated Speaker:** Delivers clear audio for effortless two-way communication within your intercom system.
- **Two Stainless Steel Buttons:** Provides user-friendly control for various intercom functions.
- **Aluminium Construction:** Lightweight yet robust design ensures long-lasting performance.
- **Modern Aesthetic:** Sleek aluminium finish complements any building style.
- **4+1 Intercom System Compatibility:** Designed specifically for use with Farfisa's 4+1 intercom systems.
- **Easy Integration:** Seamlessly integrates with all Mody series modules and accessories.
