

SC1
Farfisa SC1 Back Box For 1 Alba Module

Description

The Farfisa SC1 back box is an essential element for a secure and professional installation of your Alba door station module. This dedicated back box provides a stable foundation, facilitates a clean flush-mounted finish, and simplifies the installation process. Made of durable plastic and perfectly compatible with your Alba module, the SC1 back box ensures a seamless and aesthetically pleasing entry point for your building.

Key Features:

- **Dedicated Design:** Specifically crafted for seamless integration with Farfisa's Alba series door station modules (single module).
- **Flush Mounting Compatibility:** Enables a clean and professional finish, ideal for modern building aesthetics.
- **Plastic Construction:** Lightweight and durable plastic material ensures long-lasting performance.
- **Modular Design:** Designed to perfectly complement your Alba door station module for a cohesive appearance.
