

SC2
Farfisa SC2 Alba Back Box For 2 Modules

Description

The Farfisa SC2 Alba Back Box For 2 Modules back box is an essential element for building a modern and functional Alba door station. This back box offers a discreet flush-mounted design, modularity for customization, and durable construction for long-lasting performance. With its ability to accommodate two Alba modules, the SC2 provides the foundation for creating a door station that perfectly suits your building's needs.

Key Features:

- **Flush Mounting:** Creates a clean and unobtrusive appearance for your door station.
- **Modular Design:** Seamlessly integrates with other Alba series modules for a customized door station configuration.
- **Durable Plastic Construction:** Provides long-lasting performance and weather resistance.
- **Black Colour:** Complements various architectural styles for a sleek and modern look.
- **Ideal for 2 Modules:** Accommodates two Alba modules of your choice, allowing for flexible functionality.
