Intratone Hands-Free Key Fobs – Choice Of Colours

Description

Select from our range of Intratone hands-free key fobs - these active MIFARE proximity tags can be used to open gates and doors without having to press a button. The tag is compatible with Intratone hands-free proximity readers and V4 intercoms, and can be used up to 1 metre away from the reader, making it an ideal solution for people with mobility issues.

Simply hold the tag in front of the reader and the door or gate will open automatically. The tags are also weatherproof, so can be used in all weather conditions.

Key Features:

- Handsfree operation
- Compatible with Intratone hands-free proximity readers and V4 intercoms
- Operating range of up to 1 metre
- Weatherproof
- Easy to use
