

SRH-CS2MS
HiTi Magstripe Encoding Module for CS-2 Series ID Card Printers

Description

The HiTi Magstripe Encoding Module for CS-2 Series Card Printers is an add-on module that allows HiTi CS-200e and CS-220e card printers to encode magnetic stripes. This makes it possible to produce ID cards, access control cards, and other cards that can be used with magnetic stripe readers.

The HiTi Magstripe Encoding Module is compatible with HiCo and LoCo magnetic stripes, and it can encode a variety of data formats, including:

- Track 1: Alphanumeric, numeric, and special characters
- Track 2: Alphanumeric, numeric, and special characters
- Track 3: Alphanumeric, numeric, and special characters, as well as ISO/IEC 7811-5 standards

Product Specifications

Weight	kg
Brand	HiTi
