Intratone-02-0201 Direct Dial Intercom Kit With Video – 1000 Users

Description

The Intratone DD-01 Direct Dial Intercom Kit With Video is a state-of-the-art access control solution that is ideal for residential and commercial properties with up to 1000 users. It features a vandal-resistant outdoor video intercom panel and a user-friendly indoor monitor, providing residents and property managers with a convenient and secure way to manage access to their properties.

Key Features

- **Direct dial intercom:** Each resident has their own unique number, which can be dialled from the indoor monitor to unlock the door for visitors.
- **Video intercom:** The outdoor intercom panel features a high-resolution camera, allowing residents to see and speak to visitors before they open the door.
- **Wireless technology:** The DD-01 intercom kit is wireless, making it easy to install and maintain.
- **Mobile app:** Residents can use the Intratone mobile app to answer the door from anywhere in the world, even when they are not home.
- **Remote management system:** Property managers can use the Intratone remote management system to manage user access, receive alerts, and view system logs.

This Intratone kit comprises of:

- Intratone DD-01 door panel (02-0200)
- Panel-mount square access control reader (04-0106)
- Central management unit (03-0101) for 2 doors

*Requires 12Vdc 5A PSU & transmission unit & export data per user.
Surface-mount box available.*
