Comelit-PAC SimpleKey Transmitter & Proximity Reader – 868 Mhz

**Description**

**Comelit-PAC SimpleKey Transmitter - 868 Mhz & Proximity Reader**

Introducing the Comelit-PAC SK9062Y, a sophisticated 4-button key fob remote control designed to enhance your control over gate automation systems and garage door openers. Its versatility extends to compatibility with proximity readers, courtesy of its integrated MIFARE chip.

- 4-button key fob remote control
- Compatible with gate automation systems, garage door openers, and proximity readers
- Dual-technology remote control (RF and proximity)
- Range of up to 120 meters in open field
- Powered by a single CR2032 battery
- Tri-colour LED indicator

**Product Specifications**
