

DHM600

RGL DHM600 Slimline Magnetic Door Lock With Built-In Exit Button & Timer

**Description**

The RGL DHM600 Slimline Magnetic Door Lock With Built-In Exit Button & Timer provides a feature-rich and aesthetically pleasing solution for door access control. This slimline lock combines a powerful holding force with a user-friendly exit button, built-in timer, and real-time monitoring capabilities. With its versatile design and reliable operation, the RGL DHM600 is a valuable addition to access control systems for various door applications.

The RGL DHM600 Slimline Magnetic Door Lock With Built-In Exit Button & Timer has a holding force of 600lbs (280kgs). It is suitable for use on 90 degree wooden or aluminium doors and is monitored for door open or door closed detection. The DHM600 also has a built-in delay timer that can be set to 0, 2.5, 5, or 9 seconds.
