

ACT365-ACU
Acre ACT365-ACU Door Controller For Use With ACT365 Cloud Service

Description

The ACT365-ACU Door Controller for use with ACT365 Cloud Service, offers a comprehensive and user-friendly solution for managing single-door access control. With its powerful features, remote access capabilities, and advanced security measures, it empowers you to effectively secure your property and gain valuable insights into your security operations.

Key Features:

- **Manage Doors in One Platform:** Take control of your physical security with the ACT365-ACU, conveniently managing both access control from a single, user-friendly interface.
- **Manage Anywhere, Anytime:** Enjoy complete control over your access system from anywhere in the world, at any time, using any device with a modern web browser.
- **Critical Event Notifications:** Receive instant alerts on your mobile device or PC for crucial door events, voltage issues, break-in attempts, and tampering.
- **Supports TCP/IP and DHCP/Static IP** addressing for flexible network integration.
- **Compatible with all ACT readers** for seamless integration with your existing system.
