DHI-ARC3000H-GW2(868) Dahua ARC3000H-GW2(868) Airshield 2G Alarm Hub

### Description

The Dahua ARC3000H-GW2(868) AirShield 2G Alarm Hub provides a comprehensive and user-friendly solution for your home and business security needs. This next-generation hub features a modern design, advanced features for reliable communication and control, and seamless mobile app integration. With its scalability, remote monitoring capabilities, and stylish design, this alarm hub offers a complete security solution for your peace of mind.

### Key Features:

- Modern Design: Features an aesthetically pleasing design that complements any home environment.
- Wireless Connectivity: Provides a convenient installation process without complex wiring for easy setup.
- Supports Up to 150 Peripherals: Connect a wide range of security devices, including sirens, keyfobs, PIR cameras, and more (up to 6 sirens and 64 keyfobs).
- Detailed Peripheral Status: Monitor signal strength, battery levels, temperature, and firmware versions of connected devices for proactive maintenance.
- Multiple Network Connectivity Options: Connect the hub using wired Ethernet, Wi-Fi, or GPRS network for reliable communication.
- Dual SIM and Automatic Network Replenishment: Ensure uninterrupted communication with dual SIM card support and automatic network switching for redundancy.
- Video Linkage on Mobile App: Receive video verification of alarm events through the dedicated mobile app for enhanced situational awareness.
- Frequency Hopping and Two-Way Communication: Benefit from increased security and stability with frequency hopping technology and two-way communication between the hub and peripherals.
- Cloud Updates and Automatic Recovery: Enjoy automatic firmware updates through the cloud and automatic recovery from failed updates for a hassle-free experience.
- Mobile App Compatibility: Works seamlessly with Dahua mobile apps (DMSS for end users and COS Pro for installers) for real-time notifications, remote control, and system management.
