SR1-REX-ST04PTE
ST04PTE Green Mushroom Exit Button

Description

The ST04PTE green mushroom exit button is a practical and long-lasting choice for access control applications requiring a blend of functionality and durability. This button combines a user-friendly design, a vandal-resistant build, and easy installation, making it a valuable addition to any building with high traffic or demanding environments. With its clear visuals, robust construction, and versatile configuration options, the ST04PTE delivers dependable performance for frequent use.

Key Features:

- **High-Impact Stainless Steel Faceplate:** Ensures exceptional durability and vandal resistance, perfect for demanding environments.
- **Large Green Dome Button:** Highly visible and easy to locate, guaranteeing smooth and intuitive use, even in low-light conditions.
- **"Press to Exit" Engraving:** Provides clear instructions for enhanced user experience.
- **Flush-Mount Design:** Creates a clean and unobtrusive appearance when mounted on a wall or surface (single gang back box included).
- **Momentary Operation:** The button activates upon pressing and deactivates when released.
- **Choice of Contact Configuration:** Offers both Normally Open (NO) and Normally Closed (NC) contacts for compatibility with various wiring systems.
