

SPC-Y521.000
Acre SPCY521.000 – Metal Back Box for SPCK52x

Description

The Acre SPCY521.000 Metal Back Box is the perfect solution for security professionals seeking a secure and aesthetically pleasing way to install SPCK52x keypads in concrete walls. Combining functionality with a modern design, the SPCY521.000 ensures a professional finish and superior protection for your security systems.

Key Features:

- **Flush Mounting Design:** Enables a discreet and aesthetically pleasing installation of the SPCK52x keypad, providing a clean and modern look that complements any décor.
- **Enhanced Tamper Protection:** The robust stainless-steel construction safeguards the keypad against vandalism and tampering attempts.
- **Flexible Mounting Options:** The back box can be securely fastened to the wall using screws or nails at the back or sides, offering multiple installation possibilities.
- **Foldable Wings for Concrete Walls:** Integrated foldable wings allow for secure installation within concrete walls, streamlining the mounting process.
- **Durable Stainless-Steel Construction:** Manufactured from high-quality 1.2 mm thick 430 stainless steel, ensuring long-lasting performance and resistance to corrosion.
