

SPC-WRMT
Acre WRMT – SPC Remote Control

Description

The Acre WRMT SPC Remote Control is a valuable addition to any home security system with an SPC control panel. This versatile remote offers a convenient way to set, unset, and control your alarm system, while the built-in SOS panic button provides an additional layer of security. With its long battery life, user-friendly design, and clear visual feedback, the Acre WRMT is the perfect companion for your SPC security system.

Key Features:

- **Multi-functionality:** Supports common operations like Set, Unset, and Part-set for easy system control.
- **Customisable Function:** Allows you to program a specific function for added convenience.
- **SOS Panic Button:** Provides a discreet way to trigger an emergency response in case of an intrusion.
- **Replaceable Battery:** Ensures long-lasting operation with the ability to replace the battery for continued use.
- **Visual Confirmation:** LED indicators provide clear feedback on the system's status and successful transmission of commands.
- **Long Battery Life:** Up to 5 years of operation with a single battery, minimising replacement frequency.
- **Compact Design:** Discreet and lightweight for easy carrying and convenient storage.
