

SPC-A210.100/VR20
Acre SPCA210+VR20 – Door Controller And Reader Kit

Description

The Acre SPCA210+VR20 Door Controller and Reader Kit provides a comprehensive and user-friendly solution for managing access control for up-to two entry points within your Acre intrusion system. This convenient kit combines the advanced SPCA210.100 2-door expander with the modern and durable VR20M-MF NGCR Mifare EV1 Mullion Reader, offering a streamlined approach to security management.

Key Features:

- **Seamless System Integration:** The expander integrates effortlessly with your existing Acre intrusion panel, simplifying access control configuration and management.
- **Enhanced Security:** Integration with the intrusion system allows for combined access control and intrusion management, along with features like user access based on arming status.
- **Flexible User Management:** Users can be configured with access rights, time schedules, and multiple profiles for granular control.
- **Standalone Operation:** The expander can store up to 512 user cards for continued operation even in case of communication loss with the main control panel.
- **Remote Access Management (Optional):** Grant access, lock/unlock doors, and monitor activity remotely using Acre Intrusion Connect or the web server (with compatible panel).
- **Modern and Durable Reader:** The VR20M-MF reader features a sleek design, robust construction, and a multicolour LED light frame for clear access status indication.

Kit Includes:

- **1x SPCA210.100 2-Door Expander:** Intelligently manages entry and exit points for two doors.
- **1x VR20M-MF NGCR Mifare EV1 Mullion Reader:** Provides secure and convenient access control with Mifare card technology.
