

SPC-P432+ VR50M-MF Kit
Acre Kit SPCP432 + VR50M-MF – 2 Door Expander And VR50M Kit

Description

The Acre SPCP432 + VR50M Kit simplifies system expansion while providing advanced features for both power management and access control. This comprehensive kit leverages your existing Acre intrusion system, offering a user-friendly and scalable solution for streamlined security management.

Key Features of The Acre Kit SPCP432 + VR50M-MF:

- **SPCP432.300 Smart Power Supply Expander:**
 - Monitored 1.5A power supply for connected devices.
 - Supports two entry doors or one entry/exit door configuration.
 - Provides configurable inputs and outputs for integration with various security devices.
 - Tamper-protected metal housing for increased security.
 - Optional 7Ah battery backup for continued operation during power outages (not included).
- **VR50M-MF NGCR Mifare Reader:**
 - Reads Mifare Classic, Plus, DESFire EV1, and EV2 cards for broad compatibility.
 - Integrated keypad for PIN code access control.
 - Multicolour programmable light frame for clear visual access status indication.
 - Built with durable materials for long-lasting performance in various environments.
