A-PM1-VP

Authenticard A-PM1: Dual Mifare Classic and 125 kHz Proximity Cards

Description

The Authenticard A-PM1 Series of dual frequency access control card that offers a balance of security and affordability. With its support for 125 kHz proximity and MIFARE Classic technology, this card is suitable for various applications requiring basic access control functionality.

Key Features:

- Dual Frequency Technology: Supports both 125 kHz proximity and MIFARE Classic 1K for compatibility with existing systems and additional security features.
- Customisable Encoding: Choose from different encoding options to suit your specific requirements (LFO: open format, LFP: customer format, LFT: TDSI proximity readers).
- Unprogrammed Format: Allows for flexible programming and customisation of card data.
- Durable Construction: PVC construction ensures durability and resistance to wear and tear.
- Gloss White Finish: Professional and clean appearance.
- ID-1 Format: Adheres to ISO 7810 standards for compatibility with standard card readers.
- Printable Surfaces: Personalise cards with company logos, employee information, or other details.

Note: The specific encoding option (LFO, LFP, LFT, or RFP) should be selected based on your system's requirements and desired level of customisation.
