

AA-14FBS-VP
BAS-IP AA-14FBS – Multi-User Video Intercom With Facial Recognition

Description

The BAS-IP AA-14FBS is a powerful and advanced multi-user video intercom system that offers enhanced security, convenience, and efficiency. With its facial recognition technology, touchscreen display, and customisable features, this intercom is ideal for modern residential and commercial buildings. Available in black, and silver options.

Key Features:

- **Facial Recognition:** Automatically identifies tenants and common visitors for hands-free access.
- **Large Touchscreen Display:** Provides clear and intuitive user interface.
- **Multiple Identification Methods:** Supports QR codes, cards, key fobs, UKEY, and access codes.
- **Advanced Security:** Built-in Wiegand output for integration with access control systems.
- **Durable Construction:** IP65 and IK06 ratings for weather resistance and impact protection.
- **Customisation Options:** Choose from various colours, ringtones, and settings.
