

DH-NVR2108HS-8P-I2-VP
Dahua NVR2108HS-8P-I2 – 8 Channel Compact 1U 8PoE 1HDD Network Video Recorder

Description

The Dahua NVR2108HS-8P-I2 is a high-performance 8-channel network video recorder (NVR) designed for professional surveillance applications. This compact and efficient device offers a wide range of features, including advanced AI capabilities, flexible storage options, and seamless integration with other Dahua devices.

Key Features:

- **8-Channel Capacity:** The Dahua NVR2108HS-8P-I2 supports up to 8 IP cameras for comprehensive surveillance coverage.
- **1U Compact Design:** Space-saving design for easy installation in various environments.
- **8 PoE Ports:** Provides power and data transmission over a single Ethernet cable for simplified installation.
- **1 HDD Bay:** Supports up to 10 TB HDD for ample storage capacity.
- **Advanced AI Capabilities:** Includes face detection, face recognition, perimeter protection, and SMD Plus for intelligent analysis.
- **High-Resolution Recording:** Records video in up to 12 MP resolution for exceptional clarity.
- **Flexible Network Integration:** Supports various network protocols and devices for seamless integration.
- **Mobile Access:** Monitor and manage your surveillance system remotely using a mobile app.
