**KFS-PA2EW**
PA2EW: Grade 3 Double Push Panic Button With Rear Tamper – No Resistors

## Description

The Knight Fire & Security PA2EW is a reliable and essential safety device for a variety of applications. This double push panic button offers a high level of security and protection, ensuring prompt emergency response in critical situations.

Key Features:

- **Grade 3 Certification:** Meets rigorous industry standards for security and reliability.
- **Double Push Operation:** Requires a deliberate action to prevent accidental activation.
- **Rear Tamper Detection:** Detects attempts to remove the device from its mounting surface.
- **Durable Construction:** Robust design for long-lasting performance.
- **Easy Installation:** Simple installation process for quick deployment.
