

KFS-PA2EWR

Knight Fire & Security PA2EWR: Grade 3 Tamper Proof Panic Button with Selectable Resistors

Description

The PA2EWR is a high-quality, Grade 3 tamper proof panic button with selectable resistors, designed to provide reliable and flexible emergency response solutions. This device offers a wide range of features and compatibility options to meet the needs of various security systems.

Key Features:

- **Grade 3 Certification:** Ensures compliance with stringent security standards.
- **Double Push Activation:** Prevents accidental activation.
- **Rear Tamper Switch:** Detects unauthorised removal or tampering.
- **Selectable Resistors:** Compatible with a wide range of alarm panels, including Honeywell, Ademco, Scantronic, and more.
- **Durable Construction:** Robust design for long-lasting performance.
- **Easy Installation:** Simple and straightforward installation process.

Product Specifications

Weight	kg
Brand	<i>Knight Fire & Security</i>
Device-type	<i>Panic Button</i>
Alarm-resistor-values	<i>1k, 2k2, 4k1, 4k7, 5k6, 6k8</i>
Grading-compliance	<i>Grade 3</i>
Construction	<i>ABS</i>
Colours	<i>White</i>
Connection-type	<i>Wired</i>
