

AMT-AD800-AM
Alarmtech AD 800 – Acoustic Glass Break Detector

Description

The Alarmtech AD 800 is a cutting-edge acoustic glass break detector designed to enhance the security of your home or business. This advanced detector utilises state-of-the-art technology to accurately detect the sound of breaking glass, providing reliable protection against intruders.

Key Features:

- **Advanced Detection Technology:** Employs sophisticated algorithms to accurately detect the sound of breaking glass while reducing false alarms.
- **Wide Detection Range:** Monitors a 165-degree field of view, covering multiple windows with a single detector.
- **Versatile Compatibility:** Detects standard glass, tempered glass, and laminated glass.
- **Grade 2 Compliance:** Meets rigorous industry standards for security and reliability.
- **Robust Construction:** Durable and reliable construction for long-term performance.
- **Easy Installation:** Simple to install and configure.

Product Specifications

Weight	kg
Brand	Alarmtech
Device-type	Glass Break Detector
Grading-compliance	Grade 2
Operating-temperature	+5 - 40°C
Power-requirement	7 - 30 VDC
Max Glass Area	,
Construction	ABS
Colours	White
Protection-rating	IP31
