

BAS-BI-VP
BAS-IP BI-Series – Multi-Button Video Entrance Panel for 2 to 12-Users

Description

The BAS-IP BI-Series Multi-Button Video Entrance Panel is a stylish and sophisticated access control solution designed for residential and commercial buildings. Available in a range of elegant colours including gold, silver, and black, this panel seamlessly integrates into any architectural style.

Key Features:

- **Multi-Button Design:** Supports multiple residents, offering convenient access control for larger properties.
- **High-Definition Video:** Equipped with a wide-angle camera and high-resolution video capture for clear identification.
- **Versatile Access Control:** Supports a variety of access methods, including face recognition, QR codes, PIN codes, access cards, and mobile apps.
- **Advanced Functionality:** Offers features such as concierge calls, call melodies, and customizable settings for enhanced user experience.
- **Robust Construction:** Built with durable materials and designed to withstand harsh weather conditions.
- **Easy Installation:** Simple and straightforward installation process.
- **Customisable Aesthetics:** Available in a range of colours (Black, Silver, or Gold) to match your building's design.
