

KFS-PDE90A4K7  
Knight Fire & Security PDE90A4K7 – Grade 2 Mini Surface Aluminium Contact

### Description

The Knight Fire & Security PDE90A4K7 is a Grade 2 mini surface aluminium contact with a single reed switch. Featuring a 6-core, 1-metre cable and built-in 4K7/4K7 resistors, it ensures seamless integration with Aritec panels. Designed for compact security installations, this durable contact is EN50131-2-6 compliant and suitable for Environmental Class 3 conditions.

**Key Features:**

- **Compact Aluminium Design** – Mini surface contact with a durable, corrosion-resistant finish.
- **Grade 2 Security Compliance** – Meets **EN50131-2-6** standards for professional security installations.
- **Single Reed Contact** – Provides **reliable detection and monitoring**.
- **Built-In 4K7 Alarm & EOL Resistors** – Designed for **seamless compatibility with Aritec panels**.
- **Miniature Size for Discreet Installation** – 40mm x 14mm x 9.7mm, perfect for **tight spaces**.
- **6-Core, 1-Metre Cable** – Allows for flexible installation.
- **Environmental Class 3** – Suitable for **harsh conditions**.
- **14-16mm Operating Gap** – Ensures **consistent and secure activation**.
