

KFS-YH10CB

Knight Fire & Security YH10CB – Waterproof Angled Contact with Selectable Resistors (Grade 3)

**Description**

The Knight Fire & Security YH10CB is a Grade 3 waterproof angled contact with selectable resistors and a 1-metre cable. Built for high-security applications, it features magnetic interference detection, sealed tamper protection, and heavy-duty aluminium construction, making it ideal for harsh environments.

**Key Features:**

- **Grade 3 Security Compliance** – Meets **EN50131-2-6** for high-risk applications.
- **Waterproof & Fully Sealed** – Prevents **water ingress**, suitable for outdoor use.
- **Angled Contact Design** – Ideal for **specific mounting requirements**.
- **1-Metre Rubber-Sleeved Cable & Grommet** – Protects against **moisture and environmental damage**.
- **Selectable Resistors** – Compatible with **Honeywell, Ademco, Scantronic, Menvier, Texecom, Pyronix, Castle, Aritech, Gardtec, HKC, Guardall, Orisec, Inner Range** panels.
- **Magnetic Interference Detection** – Ensures **Grade 3 compliance** for high-security environments.
- **Sealed Tamper Protection** – Enhances **anti-tamper security**.
- **Heavy-Duty Aluminium Housing** – Provides **rugged durability**.
- **Optional 10mm Thick Rubber Spacer** – **SPA-H10** available for ferrous surface installations.

**Product Specifications**

Weight	kg
Brand	<i>Knight Fire &amp; Security</i>
Device-type	<i>Surface Contact</i>
Grading-compliance	<i>Grade 3</i>
