

KFS-YE50

Knight Fire & Security YE50 – Grade 3 Surface Contact For Double Doors (8 Core)

Description

The Knight Fire & Security YE50 is a Grade 3 surface-mounted contact designed for double doors. Featuring 8-core potted wiring and selectable resistors, it is compatible with all major UK control panels. Built for reliable security, this sealed unit meets EN50131-2-6:2008 compliance.

Key Features:

- **Grade 3 Security Compliance** – Meets **EN50131-2-6:2008** for high-risk environments.
- **Surface-Mounted Design** – Ideal for **double-door installations**.
- **8-Core Potted Contact** – Ensures **secure and long-lasting connections**.
- **Selectable Resistors** – Compatible with **all major UK control panels**, including:
 - Honeywell, Ademco, Scantronic, Menvier, Texecom, Pyronix, HKC, Castle, Aritech, Europlex, RISCO (Gardtec), Guardall, Inner Range.
- **Flexible Installation Options** – Can be used in **shared zones, double-door setups, or wired in series**.
- **Sealed Unit Design** – No tamper switch, reducing **risk of external damage**.
- **Reliable Performance** – **0-20mm operating gap** for **consistent activation**.
