Comelit-Pac 7TOP – 7-inch Hands-Free Door Entry Monitor with Wi-Fi

Description

The Comelit-Pac 7TOP is a sleek 7-inch hands-free door entry monitor with a full-colour touchscreen, Ethernet and Wi-Fi connectivity, and VIP system compatibility. Designed for seamless access control, it allows call forwarding to your smartphone via the Comelit App.

Key Features:

- **7-inch Full-Colour TFT Touchscreen** – High-resolution **1024x600** display for clear visuals.
- **Hands-Free Communication** – Full-duplex audio system with **high-quality omnidirectional microphone**.
- **Wi-Fi & Ethernet Connectivity** – Seamless network integration and **remote access via Comelit Cloud**.
- **Smartphone Integration** – Receive calls remotely via the **Comelit App**.
- **Secure and Convenient** – Features a **backlit mechanical lock-release button**.
- **Programmable Inputs & Outputs** – Customise settings for alarms, door control, and automation.
- **Flexible Power Options** – Supports **PoE (IEEE 802.3af)**, **Comelit PoE (56VDC)**, or **48V power supply**.
- **Customisable Ringtones** – Upload personal sounds via a **MicroSD card slot**.
- **Easy Installation** – Surface-mounted with a **secure metal backplate (included)** or desktop installation (stand sold separately).

Available in the following versions:

- **TP6842** - 7TOP – 7-inch Hands-Free Door Entry Monitor
- **TP6842BM** - Featuring an Induction Loop
