

CBL-2CNS-KR050-100
Pro-Elec PEL01037 – 0.50mm 2-Core Mains Cable, 3A, Black (100m)

Description

The Pro-Elec PEL01037 is a high-quality 2-core mains cable designed for use in light electrical applications. This 100-meter reel of black cable provides reliable power transmission and is compliant with HAR and RoHS standards.

Key Features:

- **2-Core Construction:** Suitable for basic power connections.
- **0.50mm² Conductor Area:** Provides adequate current carrying capacity for light electrical loads.
- **3A Current Rating:** Suitable for low-power devices and applications.
- **100 Meter Reel:** Offers ample cable for various installation needs.
- **Black PVC Jacket:** Durable and flexible for easy installation.
- **Plain Annealed Copper Conductors:** Ensures good conductivity and reliable performance.
- **300/300V Voltage Classification:** Suitable for standard mains voltage applications.
- **CE CPR: Eca:** Meets European Construction Products Regulation standards for fire performance.

Product Specifications

Weight	kg
Brand	<i>Pro-Elec</i>
Euro-class	<i>Eca</i>
Number-of-cores	2
Sheathing	<i>PVC</i>
Screened	<i>No</i>
Cable-length	100m
Cable-type	<i>Unshielded</i>
